

## Jira with Reporting

**Duration - 2 Days / 16 Hours**

### Program Description

This program offers an in-depth introduction to Jira, focusing on issue management, boards, dashboards, and reporting.

Participants will explore how to manage projects and tasks efficiently using Jira's dashboards and reports. Advanced reporting techniques and integration with Easy BI are also covered.

The course concludes with practical dashboard practice, revision, and a Q&A session to solidify understanding.

### Learning Goals

- ❖ Develop a foundational understanding of Jira and its functionalities.
- ❖ Manage issues and tasks effectively through Jira boards.
- ❖ Create and customize Jira dashboards to monitor project progress.
- ❖ Generate and analyze Jira reports for project insights.
- ❖ Apply advanced reporting techniques and integrate Easy BI for enhanced data visualization.
- ❖ Consolidate knowledge through practical exercises and Q&A sessions.

### Course Topics
