

Gen AI for Marketing Team

Duration – 24 Hours

Program Description

This program introduces marketing professionals to the transformative potential of Generative AI. It covers foundational concepts, practical tools, and real-world applications across content creation, personalization, campaign optimization, and digital marketing.

Participants will gain hands-on experience with GenAI tools and learn to apply them ethically and effectively in modern marketing strategies.

Learning Outcomes

- Understand the role and relevance of Generative AI in modern marketing.
- Apply GenAI techniques in content creation, including blogs, ads, and social media.
- Explore the future of SEO and search with tools like ChatGPT plugins.
- Design personalized marketing strategies using AI-driven buyer personas and experimentation.
- Analyze and optimize campaigns using AI-powered analytics and attribution models.
- Identify and use leading GenAI tools tailored for marketers.
- Recognize ethical considerations and ensure responsible AI usage in marketing.
